PROFILE

I am a Front-End Web Developer with a distinctive background in Engineering & Business Management. I love using the latest technologies to create attractive websites & web applications that provide a first-class user experience on all types of devices.

SKILLS

React	Linux/ Unix	Bootstrap, Bulma
HTML5	Firebase	PSD Conversion
CSS3/ SCSS	Rest API	Web Accessibility
JavaScript (ES6)	Git/ GitHub	WordPress
jQuery	Responsive Design	Wireframe Prototyping

PROJECTS

GIF Me A Movie - Live link

A responsive React project that shows the main plot of the user selected movie using GIFs. This web application is built using seamless integration of both the MovieDB API and Giphy API.

Westerosi Wiki - Live link

An interactive map of the world of Westeros that displays information about various factions based on user input. Developed using jQuery & REST API.

EDUCATION

Front End Development Bootcamp

Juno College of Technology, Canada – 2019

Master's in International Business

Kaunas University of Technology, Lithuania – 2015

Bachelor's in Electronics Engineering

Anna University, India – 2013

EXPERIENCE

Operations Manager   **May 2018 to Dec 2018**

The Royal CoCo Resorts, India – Small luxury resort for tourists (theroyalcocoresorts.com)

- Reduced advertising expenses by 15% via de-emphasising local ads based on customer demographics.
- Increased customer base and revenue through creating tie-ups with other resorts.

Human Resource Officer   **May 2016 to Mar 2018**

ACICO Cement, Kuwait – MNC specializing in mass producing cement & ready mix (acicogroup.com)

- Spearheaded to modernize and implement a new biometric system to monitor the workforce in real time.
- Accomplished accurate and complete transition of employee information to a new database with our team.
